

a bill to eliminate the marriage penalty suffered by 28 million American working couples.

The proposal offered by the President to reduce the marriage tax penalty is a good start, but it is not enough. By doubling the standard deduction, only couples who do not itemize their income taxes receive the benefits of tax relief. In order to provide relief to couples who itemize, mainly homeowners, we must address the difference in the income tax brackets. If we follow only the President's plan, the result will be a marriage tax penalty against couples who are homeowners and couples who contribute to charities. This is not right and it is not fair.

Speaker HASTERT and House Republicans have made eliminating the marriage tax penalty a top priority. In fact, we plan to move legislation out of the House before Valentine's Day.

Last year, President Clinton and Vice-President GORE vetoed our efforts to eliminate the marriage tax penalty for almost 28 million married working people. The Republican effort would have provided about \$120 billion in marriage tax relief. Unfortunately, President Clinton and Vice-President GORE said they would rather spend the money on new government programs than eliminate the marriage tax penalty.

This year we ask President Clinton and Vice-President GORE to join with us and sign into law a stand alone bill to eliminate the marriage tax penalty.

Of all the challenges married couples face in providing home and hearth to America's children, the U.S. Tax Code should not be one of them. The greatest accomplishments of the Republican Congress this past year was our success in protecting the Social Security trust fund and adopting a balanced budget that did not spend one dime on Social Security—the first balanced budget in over 30 years that did not raid Social Security.

Let's eliminate the Marriage Tax Penalty and do it now!

#### MARRIAGE PENALTY RELIEF

- 236 Bipartisan Cosponsors of H.R. 6, 28 Democrats, 22 Members of the Ways and Means Committee
- The proposal being offered today will offer:
  - \$182 billion in tax relief over 10 years
  - This is \$60 billion more than the proposal vetoed by President Clinton and Al Gore
  - This is \$137 billion more than the President proposed last week
  - The President's proposal would provide \$45 billion in relief over 10 years
  - Basically, doubles the standard deduction
    - Could create a homeowner penalty
    - Provide up to \$210 in relief
    - H.R. 6 will now provide up to \$1,400 in tax relief for 25 million American working couples—an average of about \$800 per couple
      - double the standard deduction
      - widen the 15% bracket to twice that of singles
    - Increase EIC threshold for married couples by \$2,000

#### PERSONAL EXPLANATION

#### HON. EVA M. CLAYTON

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, February 9, 2000*

Mrs. CLAYTON. Mr. Speaker, on rollcall No. 8, Tuesday, February 8, 2000, I was absent

due to my husband's illness. Had I been present, I would have voted "yea."

#### TRIBUTE TO PETER H. MACLEARIE

#### HON. FRANK PALLONE, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, February 9, 2000*

Mr. PALLONE. Mr. Speaker, it is with profound sadness that I rise to mark the passing of Mr. Peter H. Maclearie of Spring Lake Heights, NJ, who died on Wednesday, December 8, 1999, at the age of 68.

Mr. Maclearie was an outstanding leader in the Jersey Shore community, contributing his talents and energies in both the public and private sectors. He served as the Mayor of Spring Lake Heights for two terms, from 1970 to 1976, having previously been a Borough Councilman from 1963 to 1970. Mr. Maclearie also served as an incorporator and member of the Board of Directors of Allaire Community Bank in Wall, NJ. He was responsible for obtaining federal grants for the development of the Spring Lake Community Center. Among his other contributions to the betterment of our community, Mr. Maclearie was a founding member and past chairman of the South Monmouth Regional Sewerage Authority. He served on various committees of the New Jersey League of Municipalities and was a member of the New Jersey Conference of Mayors and an honorary member of the Municipal Clerks Association.

Indeed, Mr. Speaker, it seems as though politics and community service must be in the Maclearie blood. Mr. Maclearie's father was the Mayor of Belmar, NJ, for 36 years, including a period of time when father and son were mayor simultaneously in adjoining boroughs. His sons, Peter and Paul, are currently municipal councilmen in Tinton Falls, NJ, and Spring Lake Heights, respectively.

Mr. Maclearie was also the president of Coded Systems Corp., which he founded in 1971. His firm specialized in codifying municipal ordinances throughout New Jersey and many other states. He also was the founder and president of Maclearie Printing of Wall, NJ.

A communicant of St. Catharine's Roman Catholic Church in Spring Lake, NJ, Mr. Maclearie also was a member of the church's Finance Committee. He was a member of the Wall Rotary Club, the Belmar Fishing Club, the Spring Lake Golf Club, the Manasquan River Marlin and Tuna Club, and the 200 Club of Monmouth County. He was a charter member of the Manasquan Elks Lodge and the Spring Lake Area Chapter of Deborah Heart and Lung Center.

Born in Asbury Park, NJ, Mr. Maclearie lived in Belmar before moving to Spring Lake Heights 42 years ago. He was an Army veteran of the Korean War, serving as a combat photographer. He was a member of the Spring Lake Post of the American Legion, a life member of the Asbury Park Post Veterans of Foreign Wars and the Richard Skoluda Chapter of Disabled American Veterans, Spring Lake Heights.

Despite his numerous commitments, Mr. Maclearie found time to enjoy life with his family, to dote on his grandchildren, to pursue such hobbies as fishing, boating, camping,

practical jokes—and, of course, politics. He is survived by his wife of 44 years, Florence Yesville Maclearie; three sons and daughters-in-law, Peter and Ann of Tinton Falls, Paul and Eileen of Spring Lake Heights, and James and Nancye of Toms River, NJ; four daughters and three sons-in-law, Michelle and Christopher Wood of Spring Lake Heights, Nancy and Matt Hayduk, also of Spring Lake Heights, Cathleen of San Francisco, California, and Mary Beth and Drew Smith of Phoenix, Arizona; a brother, Timothy of Ocean Grove, NJ; two sisters, Jean Boda of Elizabethtown, Pennsylvania, and Judy Gray of Maine; and 10 grandchildren.

In keeping with Mr. Maclearie's dedication to the cause of helping others, his family has asked that, in lieu of flowers, contributions be made to the Deborah Heart and Lung Center or the Peter H. Maclearie Scholarship Fund in Spring Lake Heights.

Mr. Speaker, the Maclearie family is obviously devastated by his loss, as are his many, many friends. I hope that they will find comfort in the many good wishes from people all over, and from the knowledge that Mr. Maclearie did all that he could to make his community a better place.

#### NONPOINT POLLUTION CONTROL PROGRAM

#### HON. CAROLYN MCCARTHY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, February 9, 2000*

Mrs. MCCARTHY of New York. Mr. Speaker, I rise today in support of the Coastal Community Conservation Act and the importance of protecting America's water ways.

Our children's future matters to all of us, and we have a responsibility to leave to them the same beautiful and viable environment that we enjoy today. The Coastal Community Conservation Act is a step in the right direction.

The Conservation Act requires states with approved coastal zone management programs, such as New York, to develop a coastal pollution control program to manage nonpoint sources which affect water quality.

A major feature of a coastal nonpoint control program is that it unites the water quality management expertise of the state water quality agencies with the land use management expertise of the coastal management agency. In order to preserve America's heritage, this unity of water and land conservationist must happen.

The most promising approach is to incorporate pollution reduction and management into the conduct of activities rather than establish separate programs. To do this the following guidelines must be followed: build on existing programs; incorporate state and local government input; and plain common sense.

It is vital that in our zeal to find solutions to our pollution problems that we remember the importance of coordination between the states and the federal government. We all have the same goal: protecting our natural resources. We have some of the most beautiful coastlines and natural resources in the world. The time is now to solve them. And our children and grandchildren will thank us.
